MEMORANDUM FOR WHOM IT MAY CONCERN

SUBJECT: Letter of Recommendation, Mr. Dave Roever

Over the past few years Dave Roever has selflessly and professionally supported our US military forces with his heart, prayers, speaking skills, and innate ability to bring hope and courage to all those he meets. Traveling extensively, he has worked many, many long hard hours in support of our military chaplain programs and effectively described the challenges of his military experience in Vietnam in a way that encourages and strengthens our forces. With humor, and absolute credibility founded on his own courage to overcome adversity, he has touched many lives among our military members deployed around the world engaged in defending the freedom of our Nation. Dave is a tireless, teacher, friend, chaplain, and "warrior veteran" all wrapped up in one package. He makes friends, encourages everyone he meets, and he leaves new friends with a renewed sense of optimism and hope for our world. Dave Roever is an American hero, and thanks to the kind of steadfast commitment to our military that Dave brings to the "fight," we can continue to capably defend the United States of America and offer the world freedom for all.
